LEFTHANDED)

## In 2011, 2012 & 2013 more Australian hunters chose Tikka T3

We believe the only way to match a T3 is to go to a custom shop and pay several times the price. Tikka T3 offers no gilded engravings, no extra cup holders or delicate polished wood – just incredible out-of-the-box accuracy, silky smooth operation and uncompromising reliability with Sako's beautiful finish and rigorous attention to detail as standard. With Tikka T3, you hit one of the most difficult targets in the shooting world: true value.

Tikka T3 rifles sold more than any other hunting rifle in Australia for 3 consecutive years. Tens of thousands of Australian hunters can't be wrong, now can they?
